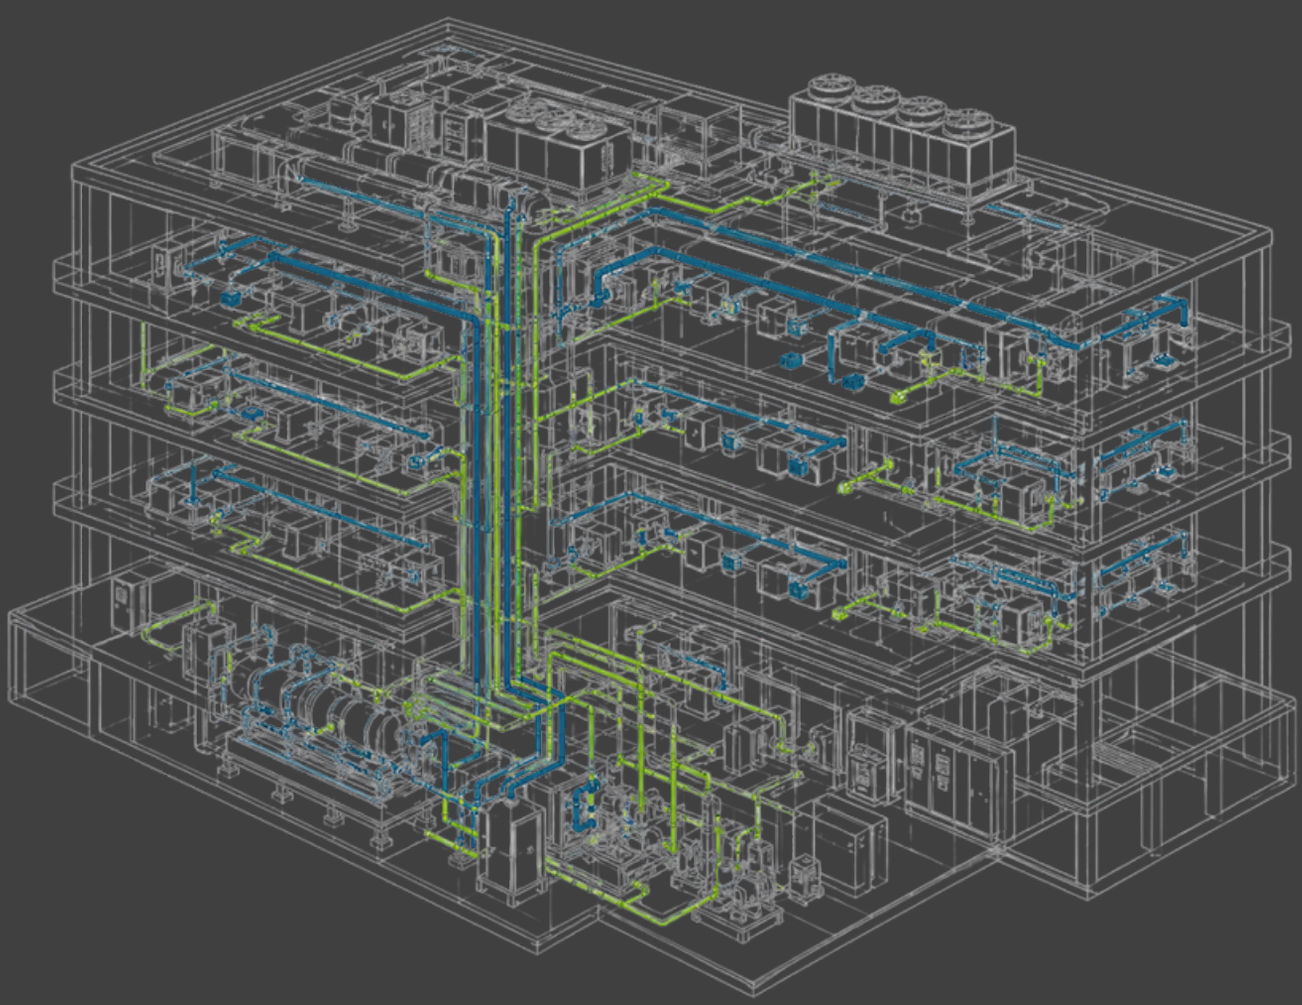
INTELLIGENT BUILDING CONTROLS

Complete Building Control Solutions

Line Card 2026

Controls, field devices and engineering support for commercial and critical building systems.



Building Control Solutions, from Supervisor to Sensor

Product solutions for integration, measurement, actuation and environmental control.

BUILDING MANAGEMENT SYSTEMS

Supervisory Platforms • DDC Controllers • Room Controllers & Thermostats • HMIs • Secure Remote Access

I/O MODULES

Expansion I/O • Remote I/O • Distributed I/O • Protocol Gateways

VALVES & ACTUATORS

Control Valves • PICVs • Energy Valves • Valve & Damper Actuators

METERS

Power & Energy • Flow • Heat & Cooling (BTU) • Water

SENSORS & MEASUREMENT

Temperature & Humidity • Light & Occupancy • Air Pressure & Airflow • Liquid Level • Liquid Flow & Pressure • Power Monitoring

ENVIRONMENTAL CONTROL & SAFETY

Humidity Control • Water Treatment • Indoor Air Quality • Gas Detection & Proving • Refrigerant Detection • Water Leak Detection

IBC Partners & Brands

Supply Partners

Available Brands

Value-Added Services

WIDE PRODUCT AVAILABILITY

Large stock holding supporting commercial and critical projects

AFTER-SALES TECHNICAL SUPPORT

Project support, commissioning assistance and technical troubleshooting.

SYSTEMS TRAINING

Manufacturer-approved training for BMS engineers, system integrators and commissioning teams.
